Conclusions

- ▶ The results obtained showed an impressive neighborhood segregation among Hispanic population and White population
- ▶ Clear cluster classification
- ▶ Potential investments such as Asian food and Italian food in Hispanic neighborhoods which according to the clusters, those are no common places there.
- ▶ It is necessary further analysis to be sure about investments, however the resultant clusters serve as a starting analysis.
- ▶ White group cluster is very influenced by Asian food such as Chinese, Japanese, and Sea food.
- ▶ Hispanic group is influenced by Mexican Restaurant, Fast Food Restaurant, Food Truck, Pizza Place, and Convenience Store.
- ▶ Only one White neighborhood appears in a Hispanic cluster which denotes how different those races are.
